

Solar Optical Cable TV Node

Features & Technical Specification

FEATURES

- > Solar Powered Operation, 5 Days Battery Backup, Long Life Easy to Install, Excellent BER, MER & C/N
- > Output: 0 dBm @ 100 dBuV, Dual output
- > Wave Length : 1200 nm - 1600 nm, Optical Indication
- > Power Indication, Solar Panel : 12 V/ 25 @, Battery : 12V/7 AH
- > Built in PWM solar Charge Controller
- > Uninterrupted Signal Distribution

TECHNICAL SPECIFICATION

Solar systems are well known as a clean and reliable source of energy. To reduce pollution and prevent our world from the consequences of climate, the unlimited power of the sun must be used efficiently worldwide.
